Guiding Principles:

1. Academic quality is paramount.
2. Initiated locally, developed and approved through standard TCC procedures.
3. Consistent with campus mission and strategic goals.
4. Designed to meet market needs, informed by current employer data, align with relevant industry/sector standards.
5. Provide opportunities for industry/education connections and partnerships.
6. Flexible and innovative.
7. Portable and have value beyond the institution.
8. Stackable (multiple micro-credentials lead to credit bearing coursework, a more advanced badge or a registered certificate or degree).
